PROJECT

COFFEE SHOP

ACADEMIC PROJECT, Centennial

11/2020 - 12/2020

This web site provides each required component implemented by HTML5, CSS, and Pure Javascript. All requirements and more tasks are completed perfectly.

- Improved UI with bootstrap and CSS animation.
- Provides all validation logics to check user's input data.
- Developed responsive design and modernized UI.

EMPLOYMEE MANAGEMENT

ACADEMIC PROJECT, Centennial

02/2021 - 04/2021

This app application allows admin users to manage employees' information and manage each personal data efficiently and effectively.

- Communicated node-based server from a browser.
 - Provides all necessary middlewares and server-side validations.
 - Implemented authentication and authorization.
 - Managed persistent data with PostgreSQL, MongoDB and local storage.
-
